Jessica Toth, MSPH - Health Data Compass

CU Anschutz

Suggested topics

1. Brief overview of who we are and what we do with APCD.
2. A brief description of the information you were able to provide CIVHC in your Finder File.
3. What worked well?
4. Challenges you encountered.
5. Lessons you learned that would help others.
6. Suggestions for CIVHC to improve the Finder File process.

Suggested topics

1. Brief overview of who we are and what we do with APCD.

Health Data Compass

Health Data Compass & CIVHC

Data exchange:

- Twice yearly.
- Limited dataset.
- Medical & Pharmacy claims, Provider, Eligibility.
- UCHealth and Children's Hospital patients MRNs provided.
- MRNs cohort based upon a definition of "clinical relationship.
- Look-back period of 2 years.

Suggested topics

2. A brief description of the information you were able to provide CIVHC in your Finder File.

3. What worked well.

4. Challenges you encountered.

1:1 Ratio

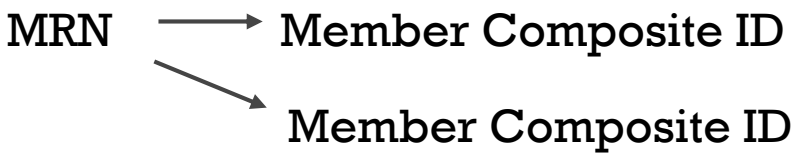
MRN → Member Composite ID

MRN	Member Composite ID
9868xyz	555589

1:M Ratio

Member Composite ID	MRN
7868699	283746dde
7868699	744349hw8

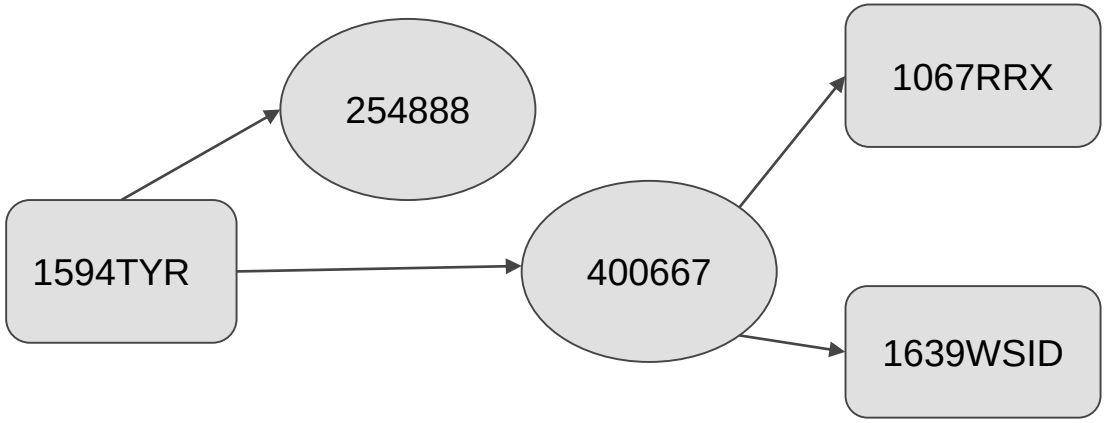
1:M Ratio



MRN	Member Composite ID
9868xyz	555589
9868xyz	293482

1:M:M Ratio

Finder File Flow Chart



MRN	Member Composite ID
1067RRX	400667
1594TYR	254888
1594TYR	400667
1639WSID	400667

5. Lessons you learned that would help others.

1. Send finder file metadata and request feedback when uploading.
2. Create upload documentation.
3. Update your processes to be as relevant as possible.
4. Code check.

6. Suggestions for CIVHC to improve the Finder File process.

- Assist Compass with understanding match-rate drops (Crosswalk vs Medical Claim Header).
- User-perspective: MRN is the imperative.
  - 1:1 ratio for MRN: Member Composite is lower than 1:1 ratio for Member Composite: MRN.
- Compass is able to investigate anomalies on patients in electronic healthcare records. An enhanced dataset with an expanded set of identifiers (name, address) from CIVHC would assist with the linkage process.
  - This data sharing process would differ from current process/relationship.
