| **Providers**       | • Provider, organization, or facility name  
                     • Taxonomy (provider specialty)  
                     • National Provider Identifier (national standard identification number for providers)  
                     • Provider office address | | • Retroactive payments from the provider to CMS or vice versa (i.e. CMS payments to Critical Access Hospitals after cost report submission)  
                     • Referrals between providers  
                     • Provider network analysis  
                     • Provider affiliation (i.e. hospital owned) |
| **Service Site**    | • Place of service code (ER, Home Health, Hospice, Urgent Care, Hospital, Long-term Care, etc.) | • Pharmacy chain name  
                     • Free-standing Emergency Department claims billed under parent hospital | |
| **Member details**  | • De-identified member information:  
                     • Unique member and person ID  
                     • Gender  
                     • Age  
                     • 3-digit zip  
                     • Protected Health Information (*PHI only available after detailed review by Data Release Review Committee for compliance with HIPAA/HITECH and CO APCD rules*):  
                     • Names (first, last, middle)  
                     • Street Address  
                     • City  
                     • Zip  
                     • DOB | • Identify claims by employer name – requestor must provide group policy number | |
| **Medical History** | • Identify an individual’s diagnoses, labs or tests performed, cost of care, pharmacy, provider, and history of accessing the health care system (facilities/providers/physician offices, etc.). Data available from 2009 forward for Medicaid/Medicare and some commercial payers; most complete from 2012 on for majority of commercial payers. | | • Personally reported medical history (i.e. had hysterectomy 15 years ago, or family history of breast cancer) |
## Capabilities of the Colorado All Payer Claims Database

</table>
| **Diagnosis, Service and Preventive Services** | • Chronic disease prevalence, service utilization and cost to treat information (asthma, diabetes, etc.)  
• Evaluate effectiveness of programs not covered fully by insurance (i.e. palliative care, nutritional meals, care coordination, etc.)  
• Service-specific price information by region and provider group/facility (cost for knee replacement, imaging services, office visits, etc.)  
• Preventive care and screening rates and associated costs (breast cancer screening, colonoscopy, mammography, annual preventive services, etc.) | • Mental health/substance abuse diagnosis (see above, pending behavioral health organization submission through HCPF/Medicaid, commercial payer willingness and Federal rule change)** | • Results of lab tests – information not included in claims  
• Preventive services, screenings, etc. that are not paid for by an insurance payer (Health Fair screenings, out-of-pocket flu shots, etc.) |
| **Pharmacy** | • Prescriptions reimbursed by insurance – allowed amount and utilization by patient residence, trends  
• Drug Trade Name, specific strength and dosage form based on NDC code on the pharmacy file (not on the claim)  
• Dosage information; days supply/number of pills or other units  
• Drugs administered during inpatient hospital stays  
• Medication adherence rates and trends | • Pharmacy chain identification (i.e. Walmart, Walgreens, etc.) | • Prescriptions issued but not filled  
• Drugs received through discount program that does not have a claim associated  
• 100% self-pay medications |
| **Diagnostic Testing & Labs** | • Cost and utilization for people receiving labs or diagnostic test that generate a claim. | | • Specific results of labs or other diagnostic tests. |
| **Quality of Care** | • Process quality measures (National Quality Forum, etc.) – i.e. standards of care such as appropriate testing for diabetes patients and other “proxy” measures  
• Readmissions, observation stays  
• Hospital-acquired infections/conditions  
• Potentially avoidable costs/complications – based on episode analytics | | • Identify clinical outcomes of treatment or specific services provided |

* Possible with a change to the Data Submission Guide and/or legislative rule or partner collaboration  
** The Substance Abuse and Mental Health Services Administration (SAMHSA) has recently made changes to the rules regarding the collection of substance use disorder information. CIVHC and state partners are working to understand these changes and once they are implemented, this section will be updated.
